Dear Hugh,

It was good to meet you even if it was in a dockside bar on the Waterfront. Next time I guess we will recognise each other.

I do have a question which you can give me the answer to. I'd appreciate it any way.

I Now have your 1797 6-2 which shows the cent undertype. I got it from Jack Beyrau. My question is where did you obtain it?

I have been very actively working on a Condition Census. and any specimen of this Variety over VF-20 is a Candidate for the Census. This trying to keep from duplicating Previously Reported Specimens.

Thanking you in advance.

Sincerely
Roger

Dear Roger,

Please accept my appologies for not answering your letter sooner than 30 days. We have just gone through one of the busiest back to school seasons we have ever had, so lots of things went unattended, including your letter.

I rechecked my slide of the 1797 S-2 last night. The undertype shows up quite clearly in the picture. I bought the coin from Joe Flynn on 6/12/70, with a group of Half Cents he sent me. His asking price was $275.00 and I paid him $235.00 for it. I think he purchased it from another dealer rather than from an estate.

Hope this will help you. Again, sorry to be so late.

Sincerely,

Doug
